

Professional Summary

Results-oriented AI/ML Consultant with expertise in **Generative AI**, **LLMs**, **Conversational AI**, and **DevOps** integration. Proven track record in developing scalable AI solutions, designing **RAG pipelines**, and deploying chatbots using tools like **LangChain** and **Streamlit**. Skilled in integrating **vector databases**, **Kubernetes**, and **CI/CD** workflows. Passionate about advancing AI adoption through innovative projects, technical leadership, and mentoring. Committed to fostering **collaborative learning** by delivering hands-on projects and real-world case studies in Computer Science.

Education

Master of Computer Application in Artificial Intelligence

Manipal University Jaipur, Remote, India

Aug'24 - Present

Bachelor of Science Information Technology

University of Mumbai, India

CGPI 9.22/10.0

June'18-May'21

Skills

- **Programming:** Python, Java/Kotlin, React.js, Vue.js, FastAPI, Linux
- **AI & ML Expertise:** Machine Learning, NLP, Large Language Model (LLMs), Retrieval Augment Generation (RAG), Chatbots, GenAI, Huggingface, Duckling
- **Frameworks & Tools:** Langchain, Streamlit, Ollama, OpenAI, Rasa, LM Studio, Tensorflow, PyTorch
- **Database:** ChromaDB, Milvus, Qdrant, MongoDB, SQL, Postgres
- **DevOps & Cloud:** Docker, Kubernetes, Helm, CI/CD(Github Actions), AWS(EC2, S3, EKS, Route 53, Cloudfront)
- **Project Management:** Jira, Agile, Scrum, Discord, Streamyard, Azure PMO
- **Soft skills:** Leadership, Public Speaking, Community-building, Mentoring, Cross-Team collaboration, Researcher
- **Certifications:** NLP Specialization (Coursera), Intro to ML(Udacity), Rasa Developer

Industry Experience

AI/ML Consultant - Contractor | Ruffalo Noel Levitz | Remote

Oct'24-Present

- **Developed** LLM-based solutions for US universities, including chatbots and RAG pipelines.
- **Built** and deployed CI/CD workflows for Vue.js Chat widgets and LLM based chatbots on AWS EC2, EKS, and S3.
- **Created** custom Helm charts for efficient chatbot deployment, improving scalability and reliability.
- **Collaborated** with cross-functional teams to optimize RAG pipeline integrations and enhance system performance.

Senior Bot Developer | ChatOwl.Inc | Remote & Bhubaneshwar, India

May'23-Nov'24

- **Managed** a team of 2 developers, ensuring seamless integration of new features and technical growth.
- **Designed** and deployed a mental therapy bot with symptom detection (**98% accuracy**) and suicide detection (**100% accuracy**).
- **Improved** user experience by **86%** through advanced LLM integrations for detecting mental health issues such as anxiety and depression.

AI/ML Engineer | Hoory | Remote

Nov'21-May'23

- **Built** a sports betting assistant using Docker, Rasa, NLP, and FastAPI, enabling users to place real-time bets.
- **Developed** multilingual chatbots, broadening user reach by 40%.
- **Created** an automated system with Python, React.js, and Vue.js for generating virtual assistants with a single click.
- **Represented** Hoory at the ITC Maratha Startup Conference, networking with industry leaders and fostering international collaborations.

AI Consultant – Contractor

Nov'22 – Feb'23

- **Built** a real estate assistant integrating Rasa and GPT-3, providing accurate API responses for property inquiries.
- **Conducted** training sessions on Rasa fundamentals, including NLU, domain setup, and chatbot customization.

AI Trainer – Contractor

Nov'22 – Dec'22

- **Delivered** foundational training on Rasa, AI, NLP, and entity extractors, equipping teams with practical skills for chatbot development.

Junior Chatbot Dev | Dolphinchat | Remote

Jul'21-Nov'21

- **Enhanced** chatbot accuracy by 80% using DIET Classification and NLP for intent and entity extraction.
- **Deployed** chatbots across messaging platforms such as WhatsApp, Facebook, and Instagram, ensuring seamless operations.

Conversational AI Dev Intern | NeuralSpace | Remote

Dec'20 – June'21

- **Developed** Chatbots for 3+ domains such as restaurants, hands-free auto bots, etc
- **Engineered** Android application in Android studio integrated with wake voice, Spotify API
- **Integrated** with React JS chat widget and Android app chat widget

Key Projects

- **Mental Therapy Bot:** Achieved **98% accuracy** in symptom detection and **100% suicide detection** through advanced **LLM integrations**, significantly enhancing user engagement.
- **GenAI for Agriculture:** Developed a **conversational AI** solution using RAG pipelines with **farmer handbooks** and **Open Weather API** to provide actionable insights.
 - Enabled users to query farming and sustainability information.
 - Integrated a feature to analyse fertilizer images, advising on suitability for specific crops.
- **GenAI for DevOps:** Designed an AI-powered system integrating **LLMs** with **Kubernetes** for log summarization and troubleshooting.
 - Improved incident response times by identifying root causes and anomalies in logs.
- **Real Estate Assistant:** Leveraged **Rasa** and **GPT-3** to build a chatbot that dynamically responded to residential property inquiries via APIs.
- **AI-Powered Kubernetes Tool:** Streamlined log analysis and management for Kubernetes using **Llama 3.1**, reducing troubleshooting time by 30%.

Speaking Engagements & Workshops

- **ANTS 2024:** Presented a Tutorial Paper on "[GenAI 101](#)" at IIT Guwahati (2024).
- **GDG Tech Winter:** Presented "[Build with AI](#)" to 100+ developers (2024).
- **NextGen Farming:** Keynote Speaker on "[GenAI for Farming and Agriculture](#)" at Acropolis Institute Indore (2024)
- **CNCF Community Talk:** Workshop on "[AI-Powered Kubernetes Management with Llama 3.1](#)" (2024)
- **GitHub Community:** Presented a 30min Talk on [CI actions](#) for Automated Python code reviews (2024)
- **NCAA IET'24:** Pre-talk on "Introduction to LLM and RAG" (2024).
- **IEEE Quater Tech Table:** Delivered a mentorship session on **LLMs and RAG** (2023).

Extra-Curricular Activities

- Young Professional Member for IEEE Region 10 India
- Discord Channel Community Manager | Droid City and Rasa
- Winner of SnapKit Developer Challenge 2.0 | Community MVP
- Winner of SnapKit Developer Challenge 1.0 | Best use of Dynamic Lens
