

Dishant Gandhi

Mumbai, India | +91 8169075860 | dishantgandhi733@gmail.com | github.com/Horizon733 | www.linkedin.com/in/dishant-gandhi

Professional Summary

Dishant Gandhi is a Developer Advocate and AI/ML Engineer with 5+ years of experience in Generative AI, Conversational AI, and LLMs. He has built scalable RAG pipelines, Agentic AI systems, and knowledge graph-powered applications using tools like Neo4j, LangChain, and Streamlit. An active voice in India's developer community, Dishant has delivered **30+ speaking sessions and workshops** from IIT Guwahati to GDG, MongoDB, Kong, and CNCF meetups, known for making complex AI concepts accessible through hands-on demos and open-source projects.

Education

Master of Computer Application in Artificial Intelligence

Manipal University Jaipur, Remote, India

Aug'24 - Present

Bachelor of Science Information Technology

University of Mumbai, India

CGPI 9.22/10.0

June'18-May'21

Skills

- **Programming:** Python, React.js, FastAPI, Linux
- **AI & ML Expertise:** NLP, Large Language Model (LLMs), Retrieval Augment Generation (RAG), Chatbots, GenAI, Huggingface
- **Frameworks & Tools:** CrewAi, Pydantic AI, Langchain, Streamlit, Ollama, OpenAI, Rasa, LM Studio, Tensorflow, PyTorch
- **Database:** ChromaDB, Milvus, Neo4j, Qdrant, MongoDB, SQL, Postgres
- **DevOps & Cloud:** Docker, Kubernetes, Helm, CI/CD (Github Actions), AWS(EC2, S3, EKS, Route 53, Cloudfront)
- **Soft skills:** Leadership, Public Speaking, Community-building, Mentoring, Cross-Team collaboration
- **Certifications:** Gemini Certified Educator (Google), NLP Specialization (Coursera), Intro to ML(Udacity)

Industry Experience

AI/ML Consultant - Contractor | Ruffalo Noel Levitz | Remote

Oct'24-Present

- **Architected** and **deployed** RAG-based Conversational AI for US universities, synthesizing web content into structured responses and achieving ~85% query accuracy as reported by clients.
- **Built Agentic AI** applications for EdTech clients, including autonomous multi-step workflow agents and LLM-powered chatbots that streamlined university operations and student engagement.
- **Enhanced** a Crowdfunding platform's frontend usability and accessibility, implementing UI/UX improvements and ensuring compliance with WCAG 4.1.2 accessibility standards.
- Collaborated with the DevOps team to containerize and deploy **Agentic AI apps, Conversational AI applications, Guardrails, and Python microservices** on AWS (ECR & EKS), supporting CI/CD pipeline setup and cloud infrastructure rollout.
- **Coordinated** with the CTO, Delivery teams, and Product Owners to translate business requirements into bot flow diagrams (Miro) and actionable implementation plans.
- **Mentored** junior developers and peers, accelerating onboarding and maintaining engineering best practices across cross-functional AI and fullstack initiatives.

Senior Bot Developer | ChatOwl.Inc | Remote & Bhubaneshwar, India

May'23-Nov'24

- **Team Leadership and Agile Delivery:** Led and coached a cross-functional team of onshore and offshore developers, implementing Scrum and Agile practices to ensure efficient project delivery and continuous improvement.
- **Mental Health Chatbot Development:** Engineered and deployed NLP and LLM-powered chatbots for mental health support, achieving **98% accuracy** in **suicide** detection and **86% in identifying anxiety** and **depression symptoms**.
- **Cross-Team Collaboration and Stakeholder Engagement:** Collaborated with clinical, web, and iOS teams to deliver a seamless, gamified chat experience while working closely with stakeholders to design user-centric workflows in Miro and ensure smooth implementation.

AI/ML Engineer | Hoory | Remote

Nov'21-May'23

- **Game Betting Assistant Development:** Partnered with **SoftConstruct** to build an NLP-powered betting assistant/chatbot using **NER, Fuzzy Matching, Bag-of-Words**, and **Swarm API** for real-time game data retrieval.
- **Multilingual Expansion:** Enhanced user engagement by **40%** through multilingual support, expanding reach to **Armenian and Iranian audiences**.
- **Cross-Functional Collaboration and Networking:** Worked closely with DevOps, project managers, and stakeholders to ensure efficient delivery, leading to international collaborations through the ITC Maratha Startup Conference in Mumbai, India.

Junior Chatbot Dev | Dolphinchat | Remote

Jul'21-Nov'21

- **Advanced NLP for Chatbots:** Developed chatbots using **DIET Classifier**, **Dialogflow** and NLP techniques like **NER** with **Duckling**, **SpaCy**, **Bert** and **Regex** for accurate intent recognition and entity extraction.
- **Agile Project Delivery:** Collaborated closely with project managers to accelerate delivery timelines while consistently meeting client expectations.
- **Multi-Channel Integration:** Integrated chatbots with messaging platforms like WhatsApp, Facebook, and Instagram, expanding audience reach in the post-COVID digital landscape.

Conversational AI Dev Intern | NeuralSpace | Remote

Dec'20 – June'21

- **Multi-Domain Chatbot Development:** Gained hands-on experience building and deploying **Dialogflow** and **NLP based** chatbots for diverse clients, including restaurants and automobile businesses, delivering tailored conversational experiences.
- **Android Integration with Voice and API Support:** Developed chatbots for Android applications, integrating Spotify API for music control, using Google's TTS and STT and voice wake functionality using Picovoice's Porcupine.
- **End-to-End Product Delivery:** Collaborated with the CTO on product delivery, Azure-based deployment, and advanced programming practices to ensure seamless project execution.

Key Projects

- **Neuro-Symbolic AI Travel Planner (PoC):** Built a conversational travel planning assistant that combines neural LLMs (Ollama/LangChain) with symbolic reasoning and a **Neo4j knowledge graph**, demonstrating GraphRAG-style retrieval for personalized itinerary generation. Used SpaCy for entity extraction, Streamlit for the UI, and the HuggingFace TravelPlanner dataset loaded as a structured trip graph in Neo4j. [Github](#)
- **Vacationer:** Launched a website **vacationer.dishantg.com** a free tool helping users discover public holidays and long weekends across countries, simplifying global trip planning.
- **Mental Therapy Bot (ChatOwl):** Achieved **98% accuracy** in symptom detection and **100% suicide detection** through advanced **LLM integrations**, NLP techniques such as **NER**, **Regex**, **Fuzzy matching**, which significantly enhanced user engagement.
- **GenAI for Agriculture:** Developed a **conversational AI Chatbot** solution using RAG pipelines with **farmer handbooks** and **Open Weather API** to provide actionable insights.
 - Enabled users to query farming and sustainability information.
 - Integrated a feature to analyse fertilizer images, advising on suitability for specific crops. [Github](#)

Speaking Engagements & Workshops

- **OSConnect:** Presented a talk on Small Language Models to Global Opensource community with 80+ folks (2026)
- **GDG Build & Grow 2.0:** Mentored 80+ students on AI and Fullstack projects to move further into winning (2026)
- **Anon Global Foundation:** Presented to 100+ Educators on AI as Teaching Assistant, not as replacement (2026)
- **Kong User Group Mumbai:** Enabled 70+ devs, how to use Kong AI Gateway for managing AI APIs & more (2025)
- **MongoDB Meetup:** Presented a Tech talk on building **Multimodal RAG** using MongoDB Vector store. (2025)
- **MumPy Meetup:** Presented a Tutorial on building a **AI-Powered CLI** tool in python to 50+ developers. (2025)
- **ANTS 2024:** Presented a Tutorial Paper on "**GenAI 101**" at **IIT Guwahati** and enabled 30+ researchers on AI. (2024)

Extra-Curricular Activities

- Young Professional Member for IEEE Region 10 India
 - Developer Relations & Content Creation | Published [blogs](#) and [YouTube](#) tutorials, on LLMs and chatbot development.
 - Discord Channel Community Manager | Droid City and Rasa
 - Winner of SnapKit Developer Challenge 2.0 | Community MVP
 - Winner of SnapKit Developer Challenge 1.0 | Best use of Dynamic Lens
- Dec'23-Present
Mar'21- Present
